Food Services & Drinking Places	\$7,352,913	\$2,422,768	\$4,930,145	50.4	8

**Supply (retail sales) estimates sales to consumers by establishments. Sales to businesses are excluded. Demand (retail potential) estimates the expected amount spent by consumers at retail establishments. The Leakage/Surplus Factor measures the relationship between supply and demand that ranges from +100 (total leakage) to -100 (total surplus). A positive value represents 'leakage' of retail opportunity outside the trade area. A negative value represents a surplus of retail sales, a market where customers are drawn in from outside the trade area. The Retail Gap represents the difference between Retail Potential and Retail Sales. The NAICS is used to classify businesses by their primary type of economic activity.

*This ratio indicates the number of employees working in the area versus the number of residents. A higher ratio indicates more commercial presence.

Bachelor's Degree	25.0%
Graduate or Professional Degree	30.7%

Spending Potential Index	
Apparel and Services	103
Computers and Accessories	N/A
Education	94
Entertainment / Recreation	103
Food at Home	102
Food Away from Home	102
Health Care	105
Household Furnishing and Equipment	102
Personal Care Products and Services	103
Shelter	100
Support Payments/Cash Contributions/Gifts in Kind	103
Travel	99
Vehicle Maintenance & Repair	106

Note: The Spending Potential Index is household-based, and represents the asset value or amount spent for a product or service relative to the national average of 100. Values higher than 100 indicate spending above the national average, and values lower than 100 indicate lower spending than the national average.

Greenfield Avenue Commercial District—Greenfield

ESRI Tapestry Segmentation Area Profile

Neighborhood Quick Facts*

- Walk Score: 74
- Transit Score: 47
- Bike Score: 44

* The Walk Score is a measure between 0 and 100 that measures the ease of accessing amenities and running errands by walking. For more information, see <http://www.walkscore.com/>

TAPESTRY SEGMENT DESCRIPTIONS

Rustbelt Traditions

The backbone of older industrial cities in states surrounding the Great Lakes, Rustbelt Traditions residents are a mix of married-couple families and singles living in older developments of single-family homes. While varied, the work force is primarily white collar, with a higher concentration of skilled workers in manufacturing, retail trade, and health care. Rustbelt Traditions represents a large market of stable, hard-working consumers with modest incomes but an average net worth of nearly \$400,000. Family oriented, they value time spent at home. Most have lived, worked, and played in the same area for years.

Old and Newcomers

This market features singles' lifestyles, on a budget. The focus is more on convenience than consumerism, economy over acquisition. Old and Newcomers is composed of neighborhoods in transition, populated by renters who are just beginning their careers or retiring. Some are still in college; some are taking adult education classes. They support charity causes and are environmentally conscious. Age is not always obvious from their choices.

Emerald City

Emerald City's denizens live in lower-density neighborhoods of urban areas throughout the country. Young and mobile, they are more likely to rent. Half have a college degree and a professional occupation. Incomes close to the US median income primarily from wages, investments, and self-employment. This group is highly connected, using the Internet for entertainment and making environmentally friendly purchases. Long hours on the Internet are balanced with time at the gym. Many embrace the "foodie" culture and enjoy cooking adventurous meals using local and organic foods. Music and art are major sources of enjoyment. They travel frequently, both abroad and domestically.

Note: ESRI is an independent geographic information systems (GIS) corporation and is not affiliated with the Urban Redevelopment Authority of Pittsburgh. This analysis utilizes socioeconomic and marketing data to identify distinct segments of the population, map where they reside, and describe their socioeconomic qualities and consumer preferences. **More information on tapestry segments and segment descriptions can be found at:** <https://doc.arcgis.com/en/esri-demographics/data/tapestry-segmentation.htm>.
